

IDR Lecture-Workshop 3-Day Course

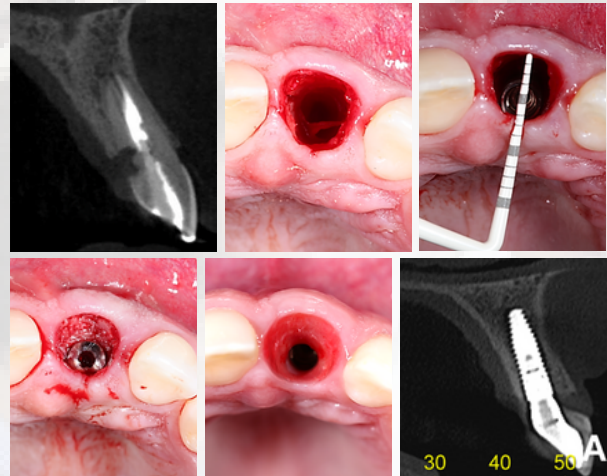

by Dr. José Carlos Martins da Rosa

COURSE [301]

19 CE CREDITS

Dr. José Carlos Martins da Rosa
Master in Immediate Dentoalveolar Restoration (IDR)

COURSE PROGRAM

- ✓ The Immediate Dentoalveolar Restoration (IDR) technique is a surgical and prosthetic protocol established to broaden indications for immediate loading on individual teeth.
- ✓ Tissue losses with various extensions are reconstructed in the same surgical session of implant placement and provisional crown installation, reducing the number of interventions and keeping predictability on esthetic aspects.
- ✓ The IDR technique advocates minimally invasive surgery and flapless procedures, is presented as a viable and reproducible alternative.
- ✓ Learn and train with the inventor of the IDR technique, Dr. José Carlos Martins da Rosa.

Single-tooth replacement in the esthetic zone has been one of the most common indications for dental implant placement. Compromised teeth are removed using atraumatic principles and immediately replaced by an implant-supported provisional restoration, with excellent esthetic, biological, and functional results.

However, the clinical scenario presents a different dilemma in cases of compromised sites with bone loss/gingival recessions. Until now, all developed surgical recommendations required long-term treatment with possible undesirable complications in the tissue architecture.

IDR Lecture-Workshop 3-Day Course

by Dr. José Carlos Martins da Rosa

The **Immediate Dentoalveolar Restoration (IDR) technique** is a surgical and prosthetic protocol established to broaden indications for immediate loading on individual teeth. In this way, tissue losses with various extensions are reconstructed in the same surgical session of implant placement and provisional crown installation, reducing the number of interventions and keeping predictability on esthetic aspects. The IDR technique was developed more than 15 years ago from the need to minimize the treatment time and morbidity of reconstructive procedures used in these cases.

This course discusses the scientific basis, the step-by-step technique, and indications. The IDR technique advocates minimally invasive surgery and flapless procedures, is presented as a viable and reproducible alternative.

Several clinical cases will be presented showing one or more compromised socket walls of the tooth involved, with or without gingival margin changes, with long-term clinical, radiographic, and CT scan follow-up.

HANDS-ON WORKSHOP GOALS

The main goals of the IDR hands-on training are to:

- demonstrate the improvement of the practitioner's management of compromised fresh extraction sockets in the esthetic zone;
- explain the step-by-step, indications, and advantages of de IDR concept;
- describe how to obtain an autogenous bone graft from maxillary tuberosity in the easiest way possible;
- review the management of the graft and complete reconstruction of the alveolar defects.

In the IDR hands-on, the participants will be able to apply all the steps related to the technique on IDR models specially developed for this course.

So come live this experience with us!

PROMO CODE: IDR-20%OFF
Exclusive Promo for IDRalumni

IDR Lecture-Workshop 3-Day Course

by Dr. José Carlos Martins da Rosa

What is included?

- 3-Day IDR course/workshop.
- HANDS-ON WORKSHOP with IDR kit & models.
- The IDR technique comprises ALL of these steps in one surgical approach: tooth extraction, bone & soft tissue graft harvest from tuberosity, immediate implant placement, and immediate provisionalization.
- 19 CE credit hours by AGD – PACE – Subject Code – 690 (Implants).
- Course Certificate.
- Corresponding CE credits Certification by ToothCE.
- 20%OFF on IDR surgical kit. Exclusive Promo for IDRalumni.
- The Immediate Dentoalveolar Restoration textbook (2023 Edition)
- Daily course break snacks and lunch.
- ‘Welcome’ cocktail reception.
- ‘Graduation’ Dinner at course completion.

Not included airfare, hotel accommodations, daily ground transportation, dinners, and tourism.

Event Location

IDR Lecture-Workshop

3-Day Course

by Dr. José Carlos Martins da Rosa

COURSE PROGRAM

2-Day Lecture Session

Day 1

TIME

TOPIC

08:00 AM – 10:30 AM

Welcome & Introduction

Lecture / Discussion:

- Presentation of the Immediate Dentoalveolar Restoration technique - IDR.
- Biology of post extraction socket.

10:30 AM – 11:00 AM

Coffee Break

11:00 AM – 12:30 AM

Lecture / Discussion:

- Diagnosis and indications of the IDR technique for compromised sockets.
- Classification of alveolar bone defects.
- Protocol for selection of implant diameter in post-extraction sites - A new approach.
- Intact socket approach.

12:30 PM – 01:30 PM

Lunch Break

01:30 PM – 03:00 PM

Lecture / Discussion:

- IDR protocol using a Cortico-Cancellous Graft.
- Making the ideal temporary restoration.
- Construction of the emergency profile aiming the final restoration.

03:00 PM – 03:30 PM

Coffee Break

03:30 PM – 05:00 PM

Lecture / Discussion:

- Maxillary tuberosity as the main donor area of bone and soft tissue grafts.

3-Day Course

by Dr. José Carlos Martins da Rosa

COURSE PROGRAM

2-Day Lecture Session

Day 2

TIME	TOPIC
09:00 AM – 10:30 AM	Lecture / Discussion: <ul style="list-style-type: none">- Bone biology of Immediate Dentoalveolar Restoration.- Advantages of using Platform Switching implants and Osseodensification concept.
10:30 AM – 11:00 AM	<i>Coffee Break</i>
11:00 AM – 12:30 AM	Lecture / Discussion: <ul style="list-style-type: none">- Application of the IDR technique in upper anterior regions.
12:30 PM – 01:30 PM	<i>Lunch Break</i>
01:30 PM – 03:00 PM	Lecture / Discussion: <ul style="list-style-type: none">- Application of the IDR technique in lower anterior regions.- Application of the IDR technique in posterior regions.
03:00 PM – 03:30 PM	<i>Coffee Break</i>
03:30 PM – 05:00 PM	Lecture / Discussion: <ul style="list-style-type: none">- Complications and how to avoid them.- Discussion & Final Conclusions.

IDR Lecture-Workshop 3-Day Course

by Dr. José Carlos Martins da Rosa

COURSE PROGRAM

1-Day Workshop Session

Day 3 - Hands-On Workshop Day

TIME	TOPIC
09:00 AM – 10:30 AM	Hands-On Workshop - Compromised Socket Part I.
10:30 AM – 11:00 AM	<i>Coffee Break</i>
11:00 AM – 12:30 AM	Hands-On Workshop - Compromised Socket Part II.
12:30 PM – 01:30 PM	<i>Lunch Break</i>
01:30 PM – 03:00 PM	Hands-On Workshop - Intact Socket Part I.
03:00 PM – 03:30 PM	<i>Coffee Break</i>
03:30 PM – 05:00 PM	Hands-On Workshop - Intact Socket Part II. - Course Completion and Certificates.
